

Personal Interview

HERM STEINBORN

Herm Steinborn, who has been an active leader of campus life at Clarkson, is the subject of this week's personal interview. Herm has been a working member of several extra-curricular organizations on the campus and has been especially active in the operation of Radio Station WNTC.

His hometown is New York City where he spent his first years and received his early education.

After graduation from high school he entered the United States Army spending two years in the Infantry. He was stationed in the European Theatre of Operations.

In March of 1947 Herm enrolled at Clarkson majoring in mechanical engineering. That year he joined the Radio Club and was elected secretary.

In his sophomore year he joined the staff of Station WNTC as an announcer. He was later appointed Day Manager and Assistant Program Director. He also became a member of the A.S.M.E.

and the Math Club.

Herm was secretary of the Neutral Club as a sophomore and vice-president in his junior year. Other activities as a junior included assistant station manager of WNTC, and a member of Tau Beta Pi.

He is now starting his senior year at Tech as station manager of the campus radio station, president of the Society of American Military Engineers, a member of the Math Club and A.S.-M.E., and president of two new organizations, Kappa Kappa Tau and Mu Epsilon Pi, which he helped organize.

Although Herm is not a member of any of the college's athletic teams, he has more than made up for it by his active participation in other campus activities. He has proven that he is a fellow who, when he does a job, does it well.
